 --- TETTO MATERIALE D'INTERRIMENTO 2016

SCALE 1500

QTRF. 760

The diagram consists of a horizontal baseline. Above this baseline, there are several vertical line segments of varying heights. These segments are connected by curved lines, forming a series of peaks and valleys. The overall shape resembles a profile or a cross-section of a surface. The vertical segments are more prominent in the middle and towards the right side of the diagram.
