 P4 molto elevato

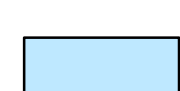

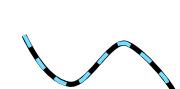

Figure 1. A schematic diagram of the experimental design. The first part of the experiment was a 10-min pretest to determine the appropriate stimulus intensity for the main experiment. The second part of the experiment was the main experiment, which consisted of three blocks of 10 trials each. The first block was a 10-min pretest to determine the appropriate stimulus intensity for the main experiment. The second block was the main experiment, which consisted of three blocks of 10 trials each. The third block was a 10-min posttest to determine the appropriate stimulus intensity for the main experiment.

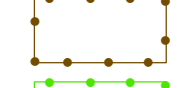

Area interessata dagli interventi di mitigazione di rischio.

Un'altra di modernità, e facile di capire, è che non c'è modernità se non c'è

Limite bacino idrografico

Limite area territoriale
