In the framework of the activities and the lobbying campaign around a macro-regional strategy for the Mediterranean, the members of the Mediterranean Cooperation Alliance, and the CPMR Intermediterranean Commission with the support of the Government of Catalonia and Provence-Alpes-Côte d'Azur Region, are launching the creation of a group of **Friends of the Mediterranean Macro-Region**. In order to give visibility to this initiative, you are kindly invited to join us for its launch event:

next 24 April 2023 from 17.30-19.30, in Brussels

The main objective is to gather efforts to make the Mediterranean Macro-Regional strategy a reality. For this, a dedicated **roundtable** gathering key representatives of European institutions and stakeholders from networks and regional/local authorities will take place to outline the **main arguments in support of this macro-regional strategy for the basin**, going back to the latest **reports** elaborated in the framework of the EU Committee of Regions (2022) and the European Parliament under Rapporteur François Alfonsi (upcoming in 2023).

After the roundtable, the participants will be invited to sign a short declaration consolidating their “friendship” towards the Mediterranean macro-regional strategy while enjoying a reception cocktail before closing the meeting.

You are therefore kindly invited to save this date in your agendas while technical information and a more detailed agenda with a timetable and location will be sent to you shortly.
